

Healthy Blue  
Medicaid Managed Care

## ***Healthy Blue Medication Formulary***

**Applies to the Louisiana Medicaid market**

The medications included in the Healthy Blue formulary are reviewed and approved by the Healthy Blue Pharmacy and Therapeutics Committee, which includes practitioners and pharmacists from the Healthy Blue provider community. Medications not listed in the formulary are considered to be nonformulary and are subject to prior authorization. Some medications listed may have additional requirements or limitations of coverage. These requirements and limits may include prior authorization, quantity limits, age limits or step therapy. Additionally, if a medication is available as a generic formulation, this will be Healthy Blue's preferred agent, unless otherwise noted. If a brand-name medication is requested when a generic exists, a prior authorization request will need to be submitted. If you have any questions about coverage of a certain product, please contact us at **1-800-454-3730**. In order to request prior authorization, the provider or member must contact the Healthy Blue Pharmacy Department at **1-800-454-3730**. Providers should be prepared to provide relevant clinical information that supports medical necessity of the requested medication.

### **Formulary legend:**

PA — prior authorization required

ST — step therapy required

QL — quantity limits apply

GL — gender restrictions apply

AL — age limits apply

RX — prescription medication

OTC — over-the-counter medication

X — medication provided by specialty pharmacy network
